## Introduction

We have reviewed the individual and consolidated interim accounting information of General Shopping do Brasil S.A. (the “Company”), contained in the Quarterly Information Form - ITR for the quarter ended June 30, 2013, comprising the balance sheet as of June 30, 2013 and related statement of income for the three and six-month periods then ended and the statements of changes in shareholders' equity and cash flows for the six-month period then ended, including the explanatory notes.

Management is responsible for the preparation of the individual interim accounting information in accordance with Technical Pronouncement CPC 21 (R1) - Interim Statement and of the consolidated interim accounting information in accordance with CPC 21 (R1) and with international standard IAS 34 - Interim Financial Reporting, issued by the International Accounting Standards Board - IASB, as well as for the presentation of these information consistent with the rules issued by the Brazilian Securities and Exchange Commission (CVM), applicable to the preparation of the Quarterly Information - ITR. Our responsibility is to express a conclusion on this interim information based on our review.

## Scope of the review

We conduct our review in accordance with the Brazilian and International standards for interim information (NBC TR 2410 – Review of Interim Financial Information Performed by the Independent Auditor of the Entity and ISRE 2410 – Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim information consists in making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

**Conclusion on the individual interim information**

Based on our review, nothing has come to our attention that causes us to believe that the individual interim financial information referred to above is not prepared, in all material respects, in accordance with CPC 21 (R1) applicable to the preparation of interim information and presented in a manner consistent with the rules issued by the Brazilian Securities and Exchange Commission (CVM) applicable to Interim Financial Information.

**Conclusion on the consolidated interim information**

Based on our review, nothing has come to our attention that causes us to believe that the consolidated interim financial information referred to above is not prepared, in all material respects, in accordance with CPC 21 (R1) and IAS 34 “Interim Financial Reporting” and presented in a manner consistent with the rules issued by the Brazilian Securities and Exchange Commission applicable to Interim Financial Information.

**Emphasis****Restatement of corresponding amounts**

As mentioned in Note 2.3, due to the change in the accounting practice related to the accounting of controlled entities, associates and joint ventures, in accordance with CPC 36 (R3)/ IFRS 10 and CPC 19 (R2) / IFRS 11, the correspondent consolidated amounts, related to the balance sheet as of December 31, 2012, presented for comparison purposes, were changed and are being restated as determined by CPC 23, Accounting Policies, Change in Estimate and Correction of Errors and CPC 26 (R1), Presentation of Financial Statements. Our conclusion is not modified in relation to this matter.

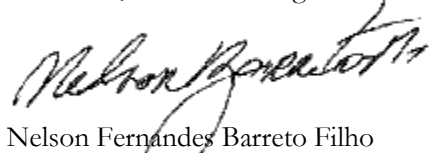

**Other matters****Statements of added value (DVA)**

We have also reviewed the individual and consolidated interim statement of added value (DVA) for the six-month period ended June 30, 2013, prepared by the Company's management, for which the disclosure in the interim financial information is required in accordance with rules issued by the Brazilian Securities and Exchange Commission (CVM) applicable to the preparation of Interim Financial Information and considered supplementary information for IFRS, which does not require the disclosure of the statement of added value (DVA). These statements were submitted to the same procedures previously described and, based on our review, nothing has come to our attention that causes us to believe that they have not been prepared, in all material respects, in relation to the individual and consolidated interim financial information taken as a whole.

**Prior period financial statements audited and interim accounting information reviewed by another auditor**

The examination of the consolidated balance sheet at December 31, 2011 and the review of the consolidated financial statements, for the period ended June 30, 2012, originally prepared before adjustments made as a result of the change in accounting policy involving the accounting for subsidiaries, associates and joint ventures in accordance with CPC 36 (R3)/ CPC 19 and IFRS 10 (R2)/ 11 IFRS, described in note 2.3, were conducted under the responsibility of other auditors, whose report of audit and unmodified review report, dated February 24, 2012 and August 14, 2012, respectively. As part of our review of accounting information for the quarter ended June 30, 2013: **(i)** audited the adjustments in the values of the corresponding balance sheet at December 31, 2011, which in our opinion are appropriate and have been properly made in all material respects, **(ii)** review the settings in the corresponding values of the interim accounting information as at June 30, 2012 and we are not aware of any facts that would lead us to believe that these adjustments were not made, in all material respects, in appropriately. We were not engaged to audit, review or apply any other procedures on the information relating to the balance sheet at December 31, 2011 and on other interim accounting information for the quarter ended June 30, 2012 and therefore, we express no opinion or any form of fastening on them taken together.

São Paulo, the 12<sup>th</sup> of August of 2013.

## **2. Presentation of interim accounting information – ITR and main accounting practices**

### **2.1. Compliance statement**

The Company's financial statements comprise:

- the interim consolidated accounting information prepared in accordance with CPC 21 (R1) – Interim Statement and with international standards IAS 34 Interim Financial Reporting, issued by the International Accounting Standard Board (IASB) and presented in conformity with the standards issued by the Brazilian Securities and Exchange Commission (CVM), applicable to the preparation of Interim Accounting Information (ITR);
- the Company's interim individual accounting information prepared in accordance with CPC 21 (R1) – Interim Statement and presented in conformity with the standards issued by the Brazilian Securities and Exchange Commission (CVM), applicable to the preparation of Interim Accounting Information (ITR).

The accounting practices adopted in Brazil comprise the practices included in the Brazilian corporate legislation and the technical pronouncements, guidelines and technical interpretations issued by the Brazilian Financial Accounting Standards Board (CPC) and approved by the Brazilian Securities and Exchange Commission (CMV). The Company adopted all of the standards, standard reviews and interpretations issued by the CPC, IASB and other regulatory bodies that were in effect as of June 30, 2013.

The Company's individual interim accounting information present the valuation of the investments in subsidiaries and jointly-owned ventures through the equity method of accounting, according to the Brazilian legislation in force. Thus, such individual interim accounting information do not comply with the IFRS, which require the valuation of said investments in the Company's separate financial statements at fair value or cost.

Since there is no difference between the consolidated shareholder's equity and the consolidated P&L assignable to the Company's shareholders, contained in the consolidated interim accounting information prepared in accordance with the IFRS and the accounting practices adopted in Brazil, and the shareholder's equity and the Company's P&L, contained in the individual financial statements prepared in accordance with the accounting practices adopted in Brazil, the Company chose to present such individual interim accounting information and consolidated interim accounting information in only one set, side by side.

The information regarding the basis for preparing and presenting the quarterly information, the summary of the main accounting practices and the use of estimates and judgment did not suffer any changes in relation to the ones disclosed in Note 2 to the Financial Statements for the year ended December 31, 2012 (hereinafter referred to as “Financial Statements as of December 31, 2012”), published on April 05, 2013 in the Official Gazette of the State of São Paulo and Valor Econômico newspaper and disclosed through the following websites: [www.cvm.gov.br](http://www.cvm.gov.br), [www.bmfbovespa.com.br](http://www.bmfbovespa.com.br) and [www.generalshopping.com.br](http://www.generalshopping.com.br), except for the new standards mentioned in item 2.3 below.

Such interim financial information is in compliance with Circular Letter CVM/ SNC/ SEP No. 03/2011 and should be read together with the financial statements for the fiscal year ended in December 31, 2012, since its purpose is to provide an update of activities, events and significant circumstances in relation to those financial statements.

## **2.2. Consolidation basis**

The consolidated interim accounting information were prepared by considering the historical cost as the base value and include the interim information of the Company and of its subsidiaries closed on the same reporting date.

Control is obtained when the Company has the power to control the financial and operating policies of an entity to measure the benefits of its activities. In the applicable cases, the existence and the effect of potential voting rights, which as currently exercisable or convertible, are taken into consideration when assessing whether the Company controls another entity, or not. The subsidiaries are fully consolidated beginning on the date in which the control is transferred to the Company and they are no longer consolidated, where applicable, beginning on the date in which the control ceases.

The subsidiaries were fully consolidated including the assets, liabilities, revenues and expenses accounts according to the nature of each account, complemented with the elimination of **(a)** investment and equity balances; **(b)** checking account balances and other balances that integrate the assets and/or liabilities held between the consolidated companies; and **(c)** revenues and expenses, as well as unrealized profits, where applicable, arising from business transactions between the consolidated companies. The Company does not hold interest in the non-controlling interest to be presented.

The profit or loss of the subsidiaries (including real estate investment funds) acquired or disposed of during the year are included in the income statement beginning on the date of the effective acquisition or up to the date of the disposal, as applicable. The consolidated interim accounting information are presented in Reais, the Company’s functional currency.

The consolidated interim accounting information include the operations of the Company and of the following subsidiaries, the percentage of interest held as of balance sheet date is summarized as follows:

|                               | Type of Interest | 06/30/2013 –<br>Ownership interest – % | 12/31/2012 –<br>Ownership interest – % |

## 2.3. New standards, amendments and interpretations of standards

### New and revised standards adopted in the individual and consolidated interim information

In 2012, the Accounting Pronouncements Committee (CPC) issued, among others, the following Pronouncements, which have impact on the Company's activities:

- CPC 18 (R2) – Investment in Associate, Subsidiary and Jointly-Owned Project;
- CPC 19 (R2) – Joint arrangements;
- CPC 36 (R3)/IFRS 10 - Consolidated Financial Statements.

Application of these accounting pronouncements approved by CVM in 2012 is required for years starting on January 1, 2013, they determine that jointly-owned enterprises must be recorded in the Company's financial statements at the equity method.

With the adoption of these new accounting pronouncements in the first half of 2013 the Company no longer proportionately consolidate jointly-owned subsidiary POLI Shopping Center Empreendimentos Ltda. thus our interim financial information for the three and six-month periods ended June 30, 2013 present our financial position and the results of our operations using equity for such investments.

As shown below, the Company applied to its interim consolidated financial information for the three and six-month periods ended June 30, 2013 new accounting requirements for jointly-owned enterprise deriving from CPC 19 (R2) Joint Ventures. Application of these new requirements changes the Company's consolidated balance sheet balances used as the basis for analyses of equity changes from December 31, 2012 to June 30, 2013, statements of income, statements of cash flows and statements of added value for the three and six-month periods ended June 30, 2012 that served as comparison basis for the same statements that are being presented as of June 30, 2013.

These modifications were approved for issue by the Board of the Company on August 12, 2013. The changes recorded for the opening balance sheet at January 1, 2012, year ended December 31, 2012 and interim financial information for the three and six-month periods ended June 30, 2013, originally stated in the financial statements for such year/periods, have been restated in accordance with CPC 23 "Accounting policies, changes in estimates and error correction" (IAS 8), as shown below:

- IFRS 12/ CPC 45 consolidates all disclosure requirements on the interest of an entity in subsidiaries, joint arrangements, associates and unconsolidated structured entities into a single standard. The Group is currently evaluating the disclosure requirements in its subsidiaries, interests in joint ventures and associates and unconsolidated structured entities compared with existing disclosures. IFRS 12 / CPC 45 requires disclosure of information on the nature, risks and financial effects of such interest;
- IFRS 13/ CPC 46 contains a single source of guidance on how the fair value is measured, and replaces the guidance for measurement of fair value that is currently provided for in other IFRS. Subject to limited exceptions, IFRS 13 /CPC 46 applies when measurement or disclosures of fair value are required or permitted by other IFRS. The Company did not record relevant impacts on its methodology to set fair value.

### New standard that is not yet in force

| In Brazil            | Standard                             |                       | Mandatory application for years beginning |

**(a) CPC 38 (R1)/ IFRS 9:** CPC 38 (R1) has not been issued on Brazil yet. The corresponding international standard is IFRS9, which has already been issued and closes the first part of the substitution project of IAS 39 “Financial instruments, recognition and measurement”. IFRS 9 uses a simple approach to determine whether a financial assets is measured at amortized cost or fair value, based on the manner by which an entity administrates its financial instruments (its business model) and the contractual cash flow that is characteristic of financial assets. His standard also requires the adoption of only one method to determine asset impairment losses. CPC 38 (R1)/ IFRS 9 also gives rise to changes in CPC 39 and CPC 40 (IAS 32 and IFRS 7). CPC 38 (R1)/ IFRS 9 is applicable to fiscal years beginning January 1, 2015 and thereafter.

The Company’s Management has assessed the new standard and it does not expect any significant effects on the amounts reported.

### 3. Business combination

On August 17, 2012 the Company acquired the all of the stock of the companies holding interest in Shopping Bonsucesso through its subsidiary, Securis Administradora e Incorporadora Ltda. The total amount of the acquisition was R\$ 129,369, a part of which was directly paid to the sellers and the other part with capital payment and debt assumption.

SB Bonsucesso Administradora de Shoppings S.A. (an acquired company) is the owner of Shopping Bonsucesso, a venture located in the city of Guarulhos, State of São Paulo. The mall has been operating since 2006 and has 24,437 m<sup>2</sup> of Gross Lettable Area.

The fair value of the identifiable assets and liabilities as of acquisition date is presented below:

|   |                  |                |
|---|------------------|----------------|
| <b>Fair value of stock as of acquisition date</b> | <b>(a)</b>       | <b>129,369</b> |

The trade notes receivable are presented at the nominal values of the securities that represent the credits, including, where applicable, yield, inflation adjustment gains and effect arising from the linearization of the revenues, calculated on a pro rata day basis up to the balance sheet date. Such nominal amounts approximately correspond to their respective present values due to the fact that they are realizable in the short term.

The Company's maximum exposure to credit risk is the book value of the above-mentioned trade notes receivable. So as to attenuate such risk, the Company follows the practice of analyzing the types of receivables (rents, services and other items), considering the historical average of losses, monitoring the equity and financial position of its clients performed by Management on a periodical basis, establishing credit limits, analyzing credits that have been past due for more than 180 days e permanently monitoring their debit balance, among others. The maximum exposure to the Company's credit risk is the book value of the accounts receivable. The client portfolio that has not been accrued refers to clients whose individual analysis of their financial position did not demonstrate that they would not be realizable.

The company considers the following assumptions in order to assess the quality of the credit of potential clients: the amount of the guarantee offered must cover at least 12 months of occupancy costs (rent, plus common charges and promotion funds, multiplied by 12); the guarantees accepted (properties, guarantors and sureties) and the use of SERASA – a company that provides information on bad debtors – as reference for consultation.

The composition of the trade notes receivable, per maturity period, is the following:

|                        | <b>Consolidated</b> |                   |

| <b>Total</b>           | <b>76,213</b>       | <b>66,338</b>     |

As of June 30, 2013, the amount of R\$ 3,405 from trade notes receivable (R\$ 2,849 as of December 31, 2012) has been past due for more than 180 days, but has not been accrued. The Company complemented the allowance for doubtful accounts in the quarterly ended June 30, 2013, because it understands that the other amounts past due are duly negotiated with the clients and there has not been any significant changes in the quality of their credit, and the amounts are considered recoverable.

## 8. Related-party transactions

### a) Balances and transactions with related parties

During the course of their business the Company, the controlling interest, the subsidiaries, the joint ventures and the civil condominiums (jointly-owned properties) enter into financial transactions among themselves, which include: **(i)** the provision of consulting services and operating assistance relating to the supply of water and energy and to the electrical installations; **(ii)** administration of shopping malls; **(iii)** commercial lease agreements; and **(iv)** agreements and decisions made with respect to condominium rules.

Upon conducting the activities, the Company and its subsidiaries enter into loan agreements that many a time are not subject to financial charges. The majority of the balances existing between the related parties refer to such loan agreements.

Generally speaking, all of the terms and conditions of the agreements entered into by and between the Company and related parties are in accordance with the terms and conditions usually adopted in loan agreements on commutative and market bases, as if the loan occurred with a non-related party, except for the balance of loan agreements on which financial charges are not levied.

Management individually negotiates agreements with related parties, analyzing their terms and conditions in the light of the terms and conditions usually adopted on the market, the particularities of each transaction, including terms, amounts, compliance with quality standards, thus having the agreement with the related party reflect the option that best meets the interests of the Company with respect to terms, amounts and quality conditions, when compared with other similar providers.

As of June 30, 2013, there is a balance of R\$ 1,055 related to invoices issued to Dias Arquitetura Company in the half of the year.

Investments properties given to guarantee loans are described in Notes 14 and 15.

### Evaluation at fair value

The fair value of each investment property under construction was determined by the appraisal performed by a specialist independent firm (CB Richard Ellis).

The methodology adopted to appraise such investment properties at fair value is the one prescribed by The Royal Institution of Chartered Surveyors (R.I.C.S.), in Great Britain, and by the Appraisal Institute in the United States, which are internationally used and well known for appraisal cases and other analyses.

All of the calculations are based on the physical qualification analysis of the property studied and on the several pieces of information obtained on the market, which are properly treated to be used in determining the value of the venture.

For the appraisals, ten-year cash flows were prepared, no considering the inflation that might exist in that period. The average discount rate applied to the cash flow was 8.99% and the average capitalization (perpetuity) rate adopted in the 10<sup>th</sup> year was 7.54%.

The table below demonstrates the overall amounts of the appraisal at fair value as of December 31, 2012 and the respective interest held by the Company in investment properties:

### Grounds for realizing deferred IRPJ and CSLL

- a) Realization over the period of depreciation of assets on a straight-line basis and/or due to the disposal of non-depreciable items (land);

- b) Due to the realization of deferred tax liabilities. No deferred income tax assets arising from tax losses and negative CSLL base, based on future tax profits, were constituted since Management does not have the estimates concerning the existence thereof. Such deferred tax assets will only be recognized when there are consistent perspectives of their realization with future taxable income.

### 27.2. Risk factors

The main source of revenues of the Company and its subsidiaries are rents from storekeepers in shopping malls.

The Company and its subsidiaries have a risk management policy to manage market risks through financial instruments. The main market risks to which the Company is exposed are translation adjustments and the flotation of inflation indexes inherent to its operations. The policy is monitored by the Board of Directors ensuring that the financial instruments do not exceed the limits of the policy, in consonance with the best corporate governance practices. The primary objective of risk management is to protect the Company's cash flows, where the operations must respect the limits of exposure, coverage, maturity and instrument, thus minimizing operating costs.

According to their nature, financial instruments may involve known risks, or unknown risks, so it is important that the Company assess potential risks according to the Company's and its subsidiaries' judgment. Therefore, there may be risks with guarantees or without guarantees, depending on circumstantial or legal aspects. The policy allows the Company to use derivative financial instruments only for hedging purposes. The Company is forbidden to enter into any derivatives that result in the net sale of options and structures financial transactions with embedded derivatives.

The main market risk factors that may affect the business of the Company and of its subsidiaries are presented below:

**a) Credit risk**

The client portfolio is broadly diversified. By means of internal controls, the Company and its subsidiaries permanently monitor the level of their accounts receivable, which limits the risk of bad debt.

The Company's risk management policy allows transactions where cash funds are invested only with first line counterparties, that is, with low credit risk, according to the international rating agencies. The policy allows derivative financial instrument transactions to be directly entered into at BM&FBOVESPA. Both the financial institutions and the brokers must be previously approved by the Risks Management Committee.

**b) Liquidity risk**

The forecast of the cash flow is performed at the operating entities of the Company by financial professionals that continually monitor liquidity in order to ensure that the Company has sufficient cash to meet its operating needs. Such forecast takes into consideration the plans for financing the debt, the achievement of the internal goals of the balance sheet quotient and, if applicable, external or legal regulatory requisites.

The cash and cash equivalents held by the operating entities, in addition to the balance required for managing working capital, is transferred to the treasury, which substantially invests cash and cash equivalents in CDBs, LTNs and investment funds with their yield bound to the changes in the CDI rate and by choosing instruments with appropriate maturity dates or sufficient liquidity to provide the necessary margin, as established by the above-mentioned provisions.

**Capital risk**

The Company and its subsidiaries manage their capital to make sure that the companies will be able to continue their going concern at the same time that they maximize the return to all of the interested parties or all those involved in their operations by optimizing the balance of the debts and equity.

The capital structure of the Company and of its subsidiaries is formed by net indebtedness (loans and financing and CCIs described in Notes 14 and 15, deducted from cash and cash equivalents and active financial instruments) and by the consolidated shareholders' equity (which includes capital issued and reserves, as presented in Note 20).

Management periodically reviews the capital structure of the Company. As a part of such review, it considers the cost of capital and the risks associated to each class of capital. The indebtedness level as of June 30, 2013 is 661%, as follows:

- **Indebtedness level**

The indebtedness level as of June 30, 2013 and December 31, 2012 is the following:

|                               | <b>Consolidated</b> |                   |
|-------------------------------|---------------------|-------------------|

| <b>Net indebtedness ratio</b> | <b>661%</b>         | <b>462%</b>       |

- (i) Debt is defined as loans and financing and short and long-term CCIs;
- (ii) Shareholders' equity includes all of the Company's capital and reserves, managed as capital.

**c) Liquidity risk management**

The Company and its subsidiaries manage liquidity risk by maintaining appropriate reserves, bank credit lines e credit lines to obtain loans they deem appropriate, by continually monitoring the forecast and actual cash flows, and by combining the maturity profiles of financial assets and liabilities.

**Interest and liquidity risk table**

The table below shows the details of the remaining contractual maturity term of the bank liabilities of the Company and its subsidiaries and the contractual amortization periods. The tables have been prepared in accordance with the cash flows not discounted of financial liabilities, on the basis of the closer date on which the Company and its subsidiaries must settle their respective liabilities. The tables include the cash flows of the interest and principal amount. While the interest flows were post-fixed, the amount not discounted was obtained on the basis of the interest curves at the end of the year.

The contractual maturity is based on the most recent date in which the Company and its subsidiaries must settle their respective liabilities.

(\*) So as to obtain perpetual bonds, the interest to be incurred up to the date of the purchase option and the principal amount were considered and, because they have no maturity dates, they were classified as debt maturing after more than five years.

#### d) Interest rate risk

- **Loans for working capital and CCIs:** the Company's subsidiaries also have a series of loan and financing obtained for working capital, as described in Notes 14 and 15, on which average interest rates are levied of up to 14.45% per year.

The Company entered into a set of interest rate swap transactions with Banco HSBC, intended to protect it from the risk of changes in the TJLP and CDI rates associated to the loans described in Note 14, items “d”, “g” and “h”, respectively. Such agreements have maturity dates and amortization percentages that are identical to the corresponding loan agreements.

The derivative financial instruments are presented as follows:

The Company's derivatives obey the hierarchy of inputs, as described in CPC 40, and are classified as Level 2 in such hierarchy. In other words, they are obtained by means of prices quoted in active markets for similar instruments, prices quoted for identical or similar instruments in non-active markets and evaluation models for which inputs are observable.

- **Accounts payable due to the acquisition or real estate:** Company's subsidiaries have amounts payable to unrelated parties relative to the acquisition of properties for the acquisition of Shopping Light, on which financial charges are levied on the basis of the changes in general price indexes. No financial instrument was entered into for the effect of changes in the interest rate to fix the rates of such transactions.

### e) Foreign exchange variance risk

The Company, through its subsidiary, has financing and amounts payable to non-related parties entered into in foreign currency in the amount of R\$ 892,152 as of June 30, 2013 (R\$ 818,595 as of December 31, 2012).

The Company measures its exposures according to the Company's own forecasting and budgeting model. Though its subsidiary, the Company entered into a US dollar futures contract at BM&FBOVESPA with the purpose of protecting its exposure to translation adjustments. The main risk that the Company intends to reduce is the exposure to translation adjustments pegged to its liabilities in foreign currency.

As of June 30, 2013, the Company used derivatives to protect translation adjustment risks equivalent to two years of interest payable, referring to the issue of perpetual bonds.

To protect the exchange variance of perpetual bonds with call in 2015, the Company uses swap cash flow in USD fixed counter to IGP-M. The swap, recorded in CETIP was standardized to meet the debt coupon payment schedule and was divided into two tranches, having first-class financial institutions as a counter parties.

So as to perform the transactions at BM&FBOVESPA, was effected by means of bonds (LFTs), an initial margin deposit was made by means of private securities of top tier financial institutions, which as of June 30, 2013 totaled R\$ 22,726.

Financial assets, except for those designated at fair value through profit or loss, are evaluated by impairment indicator at the end of each fiscal year. Impairment losses are recognized when there is objective evidence of a reduction in the recoverable amount of a financial asset, as a result of one or more events that have occurred after their initial recognition, with an impact on the estimated future cash flows of such asset.

The criteria that the Company and its subsidiaries use to determine whether there is objective evidence of impairment of a financial asset include:

- significant financial difficulties of issuer or debtor;
- contract breach, such as nonperformance or late payments of interest or principal amount;

- the probability of the debtor declaring bankruptcy or financial reorganization;
- extinguishment of the active market for that financial asset by virtue of financial problems.

The book value of financial assets is directly reduced by impairment losses for all of the financial assets, except for the accounts receivable, where the book value is reduced by using a provision. Subsequent recoveries of amounts previously written off are credited to the provision. Changes in the book value of the provision are recognized in P&L.

#### f) Sensitivity analysis– loans, financing and CCI

Considering the aforementioned financial instruments, the Company developed a sensitivity analysis, as provided for by Instruction No. 475/2008 issued by the CVM, which requires the presentation of two other scenarios with 25% and 50% impairment of the risks variable considered. Those scenarios may generate impacts on the Company's profit or loss and/or on the future cash flows as described below:

- **base scenario**, maintenance of the levels of interest at the same levels observed as of June 30, 2013;
- **adverse scenario**, impairment of 25% in the principal risk factor of the financial instrument in relation to the level verified as of June 30, 2013;
- **remote scenario**, impairment of 50% in the principal risk factor of the financial instrument in relation to the level verified as of June 30, 2013.

#### g) Loans, financing and CCI

##### Assumptions

As described elsewhere above, the Company understands that it is primarily exposed to risks referring to the changes in the TR and IPCA rates, US-dollar translation adjustments, which are the basis for updating a substantial part of the loans, financing and CCIs and perpetual bonds it has entered into. Thus, the table below demonstrates the rates used to calculate the sensitivity analysis:

| Assumptions  | Base scenario | Adverse scenario | Unlikely scenario |
|--|---------------|------------------|-------------------|
| Rise in the IPCA rate                                | 0.46%         | 0.58%            | 0.69%             |
| Rise in the TJLP rate                                | 0.66%         | 0.82%            | 0.98%             |
| Rise in the DI rate                                  | 0.65%         | 0.81%            | 0.97%             |
| Devaluation of the Real as compared to the US dollar | 5.00%         | 6.25%            | 7.50%             |

The net exposure in US dollars, without considering the effects of derivative instruments is demonstrated below:

(\*) It is calculated on the net exposure of the Company, without considering the effects of derivative instruments.

The table above shows the effects of interest and changes in the indexes up to the maturity of the contracts.

The interest on the perpetual bonds is fixed. Thus, the sensitivity analysis was not performed.

## h) Cash and cash equivalents

### Assumptions

As described elsewhere above, the Company understands that it is mainly exposed to the changes in the CDI rate and in foreign exchange rates. Thus, the table below demonstrates the indexes and the rates used to calculate the sensitivity analysis:

| Assumptions                | Base scenario | Adverse scenario | Unlikely scenario |
|----------------------------|---------------|------------------|-------------------|
| Impairment in the CDI rate | 8.16%         | 6.12%            | 4.08%             |

| Risk factor                            | Risk                     | Base scenario | Adverse scenario | Unlikely scenario |
| Subject to the changes in the CDI rate | Decrease in the CDI rate | 32,952        | 24,714           | 16,476            |

The sensitivity analysis of US-dollar based translation adjustments in cash and cash equivalents was presented net of other US-dollar based liabilities, as described in item (i).

## 28. Insurance cover

The Companies and its subsidiaries take out insurance to cover possible risks on their assets and/or civil liabilities.

As of June 30, 2013, the insurance cover is as follows:

| Type                         | Amount insured |
|------------------------------|----------------|
| Civil liability              | 2,600          |
| Comprehensive fire insurance | 1,208,612      |
| Loss of profits insurance    | 338,909        |
| Windstorm / smoke            | 78,215         |
| Shopping mall operations     | 49,765         |
| Pain and suffering           | 16,560         |
| Pecuniary loss               | 222,571        |
| Employer                     | 10,110         |

The risk assumptions adopted, given their nature, are not part of the audit scope of the financial statements, consequently, they were not audited by our independent auditors.

## 29. Information per segment

The information per segment is used by the Company's Management for decision making concerning the allocation of resources and performance assessment.

The accounting practices for the reportable segments are the same as those of the Company, described in Note 2. The P&L per segment consider the items that are directly attributable to the segment, as well s those that may be allocated on a reasonable basis. The assets and liabilities per segment are not being presented, once they are not the subject matter of analyses for Management's strategical decision making.

Therefore, the reportable segments of the Company are the following:

### a) Rent

Rent refers to the lease of space to storekeepers and other commercial spaces such as sales stands, lease of commercial spaces for publicity and promotion, exploitation of parking lots, and fees concerning the transfer of rights to use property spaces.

## b) Services provided

Services provided refer to the revenue from managing the energy and water supply of shopping malls. The Company's total revenues are realized in Brazil.

## MANAGEMENT COMMENTS

The company's management reports the operating and financial performance of the company, according to its published reports at the end of the second quarter of 2013 (2Q13).

On the one hand, the company registered a 19.8% growth between the 2nd quarter of 2012 (2Q12) and the 2nd quarter of 2013 (2Q13) in its own gross leasable area (GLA), representing a total of 255,000 m<sup>2</sup>, and on the other, a total revenue increase of around 30.9%, as a result of organic growth in its previously existing operations (in "same areas"). Breaking down this growth one notices an increase in "rental revenues" of 27.2% and in "services revenue" of 43.5%.

By detailing the growth in "same areas" mentioned above, the increase in same area revenue (SAR) in 2Q13 over the same period last year was 9%. In turn, storeowner same area sales (SAS) rose 14%, noticing that most rental indexations are due on 4<sup>th</sup> quarter. Both indicators confirm the slowdown trend of the retail sector's growth as previously stated and pointed out by the Management.

In line with this growth, the Company's NOI on 2Q13 over 2Q12 rose around 29.1% with a margin expansion from 86.3% to 87.3%, reaching R\$ 46.0 million in the quarter. There was also a slight improvement in the vacancy areas, representing 3.3% of GLA.

Also in line with the growth, the adjusted EBITDA grew 30.1% to R\$ 36.9 million in the period, expanding the margin from 68.7% to 70.0%. Furthermore, the increase in general and administrative expenses (SG&A) were most noticed in the accounts related to the Company's activities expansion, such as publicity and advertising and commercialization.

In addition to the impact of the indebtedness cost on the capital structure of the company, the financial result was also impacted by R\$ 88.3 million due to the net exchange rate effect that, despite not affecting the next interest payments (coupons) of the bonds issued which are hedged, affects the principal balance of the debt (see item "Financial Instruments").

On June 28, 2013, the company sold to the Fundo de Investimento Imobiliário General Shopping Ativo e Renda - FII, managed by Socopa - Sociedade Corretora Paulista S.A and listed on the São Paulo Stock Exchange as FIGS11, 36.5% of the property of the Shopping Bonsucesso through its subsidiary SB Bonsucesso Administradora de Shoppings S.A for R\$ 79.0 million, as well as 36.5% of the property of the Parque Shopping Maia (under construction) and 36.5% of the Improvements to be delivered for the operation of such Mall, through the subsidiary VUL Administradora e Incorporadora Ltda, for R\$ 167.0 million.

This step confirms the Company's intention to set up possible structures for the sale of minority interest in some properties, such as through the sale to Real Estate Investment Funds (FII), to strengthen its cash position and reduce leverage, preparing it for new business cycles.

We would like to once again thank the employees, storeowners, customers and visitors of our shopping malls for their contribution.

Investor Relations Officer

## GROSS REVENUE

The company's total gross revenue totaled R\$ 57.7 million this quarter, up 30.9% over that in 2Q12. In 1H13, revenue hit R\$ 112.2 million, a 32.1% increase as compared with the same period in 2012.

Rental gross revenue in 2Q13 totaled R\$ 43.3 million, representing 75.1% of total gross revenue and an increase of 27.2% over 2Q12. The main factors that contributed to this growth were: the opening of the Outlet Premium Brasilia in Jul/12, the acquisition of the Shopping Bonsucesso in Aug/12, the expansion of the Parque Shopping Prudente and Unimart Shopping Campinas in 3Q12, in addition to real growth and annual adjustments of rentals. In 1H13, such revenue totaled R\$ 84.6 million, an increase of 28.1% as compared to 1H12.

Gross revenues from services in 2Q13 totaled R\$ 14.4 million, representing an increase of 43.5% as compared with 2Q12 and R\$ 27.6 million in 1H13, a 46.2% growth in the same-period comparison.

## RENTAL REVENUE

The Company's rental revenue, which amounted to R\$ 43.3 million in 2Q13, is comprised of minimum rent, revenue exceeding percentage on sales, key money, advertising and straight-lining revenue.

Parking revenues in 2Q13 reached R\$ 10.8 million, an increase of R\$ 3.5 million or 47.5% as compared with 2Q12. This result was due to the acquisition of the Shopping Bonsucesso in Aug/12, in addition to the growth in revenue from other operations. In 1H13 revenue totaled R\$ 19.8 million, up 46.7% as compared with 1H12.

Energy supply management revenue amounted to R\$ 0.8 million in 2Q13, down R\$ 0.2 million or 18.2%. This result was due to an increase in purchase costs (spot), which reduced margins. In 1H13 registered R\$ 2.0 million, the same as in 1H12.

Water supply management revenue in 2Q13 amounted to R\$ 1.5 million and in 2Q12 this revenue reached R\$ 1.0 million. In 1H13, this revenue was R\$ 2.9 million, compared to R\$ 2.0 million from the same period last year.

This quarter registered a net increase of R\$ 4.8 million in administrative expenses as a result of (i) an increase in publicity and advertising expenses, (ii) personnel expenses due to annual adjustments, as well as a staff increment due to new operations, (iii) an increase in sales expenses as a result of new ventures, and (iv) an increase in other expenses.

**OTHER OPERATING REVENUES**

Other operating revenues are comprised mainly of recovery of costs and expenses incurred by the Company which should have been borne by tenants and other recoveries in general. In 2Q13, other operating revenues reached R\$ 38.8 million, while in 2Q12 these revenues accounted for R\$ 1.3 million. This increase was due to result from the sale of 36.5% of Shopping Bonsucesso for the Fundo de Investimento Imobiliário General Shopping Ativo e Renda - FII (non-recurring transaction). In 1H13 it totaled R\$ 40.2 million and in 1H12, R\$ 3.5 million.

**NET FINANCIAL RESULT**

Net financial result in 2Q13 was a negative R\$ 100.1 million and in 2Q12, the net financial result was a negative R\$ 93.4 million. This increase of R\$ 6.7 million resulted from exchange rate variations which mainly impacted the principal of the perpetual debt, but this is not a cash effect. In 1H13, the company posted a negative R\$ 130.5 million, compared to a negative R\$ 105.9 million in 1H12.

Interest expenses relating to loans contracted for greenfield projects are being capitalized during the construction period and will be amortized after the startup of the operations of the shopping malls.

**FINANCIAL INSTRUMENTS**

The Risk Management Policy seeks to protect the company against changes that could affect liquidity through the use of derivative financial instruments or investments in dollars. The Board monitors and decides on policy changes.

Speculative transactions are prohibited by the Policy and any instrument used should aim at mitigating risks. All operations are controlled through the daily monitoring of mark-to-market and of risk limits, informed by a third-party firm to the Financial Board.

No derivative is classified as a hedge in the definition of CPC 38, and therefore, is not booked according to Hedge Accounting practices.

**FOREIGN EXCHANGE RISK**

Since the bond issue, the company's strategy is to maintain at least two years of interest payment hedged against currency risk. This hedging can be achieved with operations in Brazil or abroad, which may include derivative instruments and that comply with the criteria of cost and profitability.

In the quarter that ended June 30, 2013, the Company decided to replace part of its futures contracts at BM&FBovespa - related to the payment of interest on Perpetual Bonds with call in 2015 - for a cash flow swap that replaces the exchange rate variation for the IGP-M price index with top tier institutions.

To protect the payments related to the Perpetual Bonds with a 12% coupon, the company continues using futures contracts on the Brazilian Securities, Commodities and Futures Exchange (BM&FBovespa), whose daily adjustments in 2Q13 already had an effect on the Company's cash flow.

On June 30, 2013, the exchange rate exposure map of the company for the next 30 months was:
